

# Baker's Bay Ferry Terminal

## Ferry Terminal, Marsh Harbour, Abaco

Client: SVHL Property (Abaco) Limited

### Services Provided

- General Construction Services
- Interior fit-out
- Material sourcing/ procurement advice
- Design input

### Benefits to Customer

- Single point of contact for Client
- Close co-ordination with Client's direct suppliers.
- On-schedule and on-budget completion and delivery of Project, during the challenges of "Post-Dorian" conditions on the island.

### Project Description

The \$3M project that the company was appointed to construct, comprised the following buildings and structures :

- VIP Terminal Building, including full interior fit-out of lounge, bathrooms and bar, construction of exterior decks and verandahs and Porte Cochere
- Guest Services Terminal Building comprising pre-engineered wood structure on an in-situ concrete slab and foundations and a separate restroom complex.

The Project works were completed in less than 10 months.
