Background

With the expansion of the existing facility at Odyssey Aviation at Lynden Pindling International Airport, additional aircraft hanger and office facilities were required to facilitate the increase in traffic. To enable the expansion, existing adjacent air side property was cleared, area brought to grade, and security fencing erected to enable land side working.

Project Description

The company were appointed for the construction of a new aircraft hanger, associated offices, aircraft apron and Hot Mix Asphalt car park and associated security fencing.

The Project included:

- Bulk Earthworks and Compaction to FAA Specification
- Construction of Clearspan Rigid Frame Hanger
- Piled Foundations
- 10" Concrete Hanger Slab and Grade Beam
- New management offices
- 10" Concrete Aircraft Apron
- HMA paving to car park and New Lighting
- Security Fencing.
